

THE ETON ACADEMY

By EtonHouse

The Eton Academy is a subsidiary of EtonHouse International Education Group offering English, Math and Science enrichment classes at i12 Katong, Great World City and Canberra Plaza.

Designed to be in close alignment with Singapore's MOE syllabus, our lessons complement and strengthen your child's learning in school, while also nurturing your child to be a curious and self-directed learner.

What goes on in class?

READING AND WRITING

- Phonics — sound out, blend and decode phonics sounds
- Penmanship — master letter strokes, upper / lower-case letters

GRAMMAR

- Simple sentence construction
- Grammar topics include:
 - punctuation
 - nouns
 - pronouns

ORAL COMMUNICATION

- Show-and-tell presentations
- Share-and-inquire discussions (e.g. what is the difference between fruit and vegetables?)

● WRITE ON!

We get your child interested in writing by inquiring into children's books, learning best writing techniques and how to emulate them

● RAISING READERS

We incorporate phonics, songs and rhymes into our lessons, building a strong foundation and an interest in reading

● BE HEARD

Our lessons encourage our children to be active listeners and articulate speakers, developing their own voice and perspective

● BE CURIOUS

Our students are exposed to a wide range of themes (e.g. biodiversity, young game changers) to get them to think beyond the classroom academia

● BE INFORMED

After each lesson, parents receive a summary of what was covered in class, as well as suggested activities to reinforce learning at home

Classes at EtonHouse ZhongHua

Duration:	1h 45mins per session
Term :	10 sessions per term
Fees :	\$74.90 x 10 = \$749.00

Schedule:

K1 : Thursdays, 4pm to 5.45pm

Teacher Jessy

Teacher Jessy is a British citizen with Singapore PR. She has more than 7 years of experience teaching English, six of them in Singapore based on the local MOE curriculum.

She is a Senior Teaching Specialist with The Eton Academy and mentors the other Early Years teachers.

Jessy is lively and full of fun, taking students on journeys beyond the classroom.
